

NO LIMITS FOR WELL-BEING

*To have an impact on people's lives by **delivering protection and becoming the standard of the industries** by applying high performance antimicrobial solutions at a **low additional cost**.*

99% inhibition of
Bacteria, Fungus,
Viruses.

Embedded
Technology

Copptech is a unique antimicrobial technology based on Copper & Zinc, which can be added to polymers, wood panels, paper, grout, among others, making them 99.9% antimicrobial - preventing bacteria, fungi, viruses even termites.

COPPTECH

Certification

Copptech's patented technology has been registered with the EPA under a **TIER I registration** (reg no. 93407-1) .

TIER I registration ensures that the antimicrobial is safe for use and allows treated articles to make claims of protection from bacteria, mold and fungus.

OUR GLOBAL FOOTPRINT

NO LIMITS FOR WELL-BEING

*To have an impact on people's lives by **delivering protection and becoming the standard of the industries** by applying high performance antimicrobial solutions at a **low additional cost**.*
